

FCC

I Respectfully urge you to reject the NAB's petition 04-160. I instead urge you to support innovative satellite radio that makes our highways and streets safer by providing timely and factual road conditions, weather and accident reports to the driving public. I fully support XM radio's new traffic and weather reporting system for our major cities and metropolitan areas. This is an issue of free speech governed by our constitution and our free market economy. Please do not let the NAB lobbyists sway you from doing what is right for our county. Thank you for your time.
